Example

The slider section Image Below

After Selecting Border pair, a summary of comparison will be shown below.

The screenshot shows the 'Africa Borderlands Encyclopaedia' dashboard. It features a header with the UNDP logo and a 'SELECT LANGUAGE' dropdown. The main content area is divided into several sections:

- Africa Borderlands Center**: Includes a map of Africa and the text 'Oversight Analysis'.
- Continental Statistics**:

Number of Countries	48
Total Unique Border Pairs	106
- Border Pair Statistics**:

Average Number of Borders per Country	2...
Total Unique Border Municipalities	735
- Border Length Overview** (in km):

Average Border Length	1,812
Total Border Length	86,979
- Navigation**: A teal button labeled 'CLICK TO VIEW DASHBOARD' with a right-pointing arrow.

Borders Section

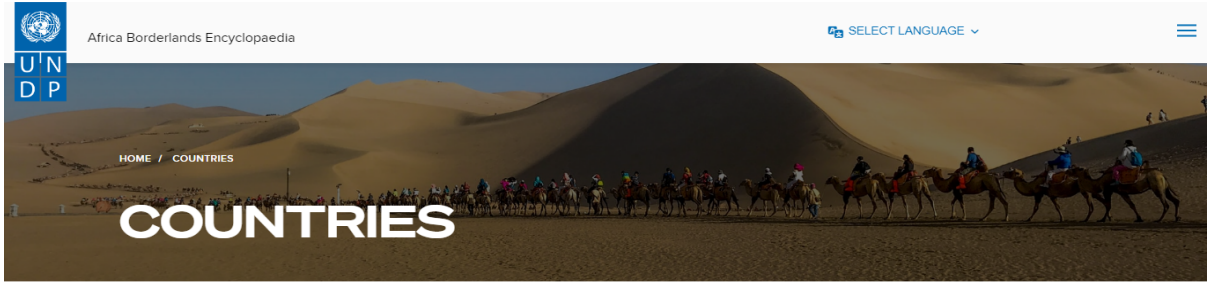

The screenshot shows the 'Borders Section' of the Africa Borderlands Encyclopaedia. It includes a header with the UNDP logo and a 'SELECT LANGUAGE' dropdown. The main content area is titled 'Select Up to 4 Border Pairs Below to Compare' and contains the following elements:

- Border Pair Selection**: A dropdown menu currently set to 'All'.
- Reset**: A button with a circular arrow icon.
- Indicators**: A table with four columns for selection and one for the indicator name.

Indicators	Please select 1	Please select 2	Please select 3	Please select 4
Area Covered (Km Sq)	0	0	0	0

All the countries here are clickable. After clicking you are redirected to the border pairs of the country you have clicked.

From the Countries page, you will be redirected to the Border pair page, after selecting a Border pair you will be taken to all possible borders of the select country.

Border Pair Page

The screenshot shows the website interface for the Africa Borderlands Encyclopaedia. At the top left is the UNDP logo and the text 'Africa Borderlands Encyclopaedia'. At the top right is a 'SELECT LANGUAGE' dropdown menu and a hamburger menu icon. Below the header is a large banner image of a desert landscape with sand dunes and a caravan of people on camels. The word 'COUNTRIES' is overlaid in large white letters. Below the banner, the word 'ALGERIA' is displayed in bold. Underneath it, the text 'Select a border pair:' is followed by six links: 'ALGERIA - LIBYA', 'ALGERIA - MOROCCO', 'ALGERIA - MALI', 'ALGERIA - NIGER', 'ALGERIA - MAURITANIA', and 'ALGERIA - TUNISIA'. To the right of these links is a 'Back to countries' link. On the far right, there is a social media widget for the 'Africa Borderlands Centre' with a 'Follow' button and a tweet from @UNDPBorderlands posted 2 hours ago.

The About Page

All the information about Africa Borderlands

Why Africa's borderlands matter

Africa's borderlands and their communities are a unique source of ingenuity, places of untapped opportunities and great resilience. In many of these regions, insecurity and poverty disguise the true socio-economic potential of borderlands and their communities. In improved circumstances, borderland communities could thrive by unlocking their potential and rich culture that will be critical to achieving Agenda 2030.

'Borderlands' are the territorial margins of nation-states - regions where border contact is a central feature of economic and political life. In Africa these regions play host to more than 270 million inhabitants, a combined population significantly larger than any single state on the continent.

Development approaches have tended to design programmes around national development plans, which are implemented within national borders and often overlook the unique challenges of borderlands and their connection to regions outside the national territory. The absence of dedicated borderland programming at a regional level has been a critical gap in developmental policy and practice.

The Borderlands Encyclopaedia

The Borderlands Encyclopaedia is a compendium of border pairs, borderland clusters, and key borderland details from across the Africa continent. It is dedicated to centrally collecting, preserving, documenting and harmonization of data, and to disseminate the harmonized data free of charge for comparison and decision making.

Vision

The Borderlands Encyclopaedia vision is to create a 'one stop shop' for accessing authoritative data on Africa borderlands to influence programmatic, innovation, research, and advocacy interventions.

Available Data

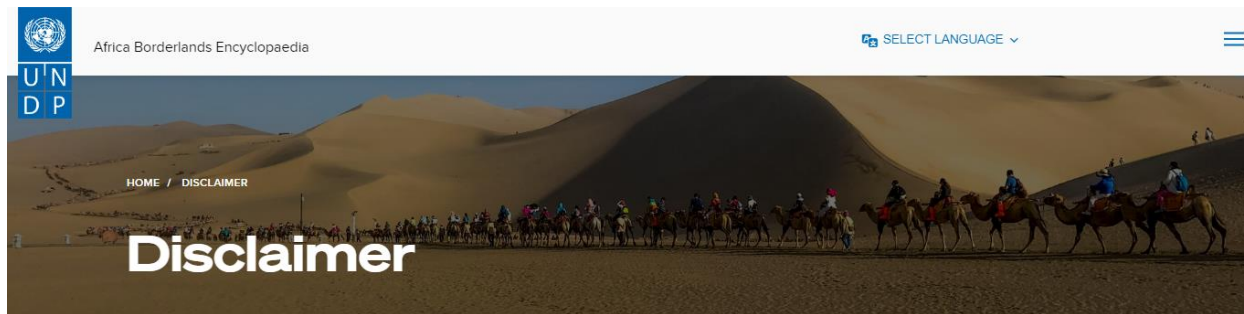

The Encyclopaedia captures basic borderlands data including but not limited to demographic, economic, social, conflicts, border closures and infrastructure. The source data is primarily from credible open sources and continuous updating is done to ensure that the data is current. Data quality assurance mechanisms include triangulation of data sources and data cleaning and validation processes to ensure accuracy, completeness, and integrity of data. Hyperlinks to the sources have been embedded for cross-reference and to credit the original data producers. The Encyclopaedia has an integrated dashboard to enhance interactive user experiences and data visualization. The data can be downloaded for advanced statistical analyses and modelling.

The Encyclopaedia will provide a platform to continuously share evidence, improve knowledge and information and will be a living repository of ethnographic information and borderlands stories. Data partnerships will play a catalytic role in expanding the Encyclopaedia scope through sharing of existing data and joint primary data gathering initiatives.

Guidelines

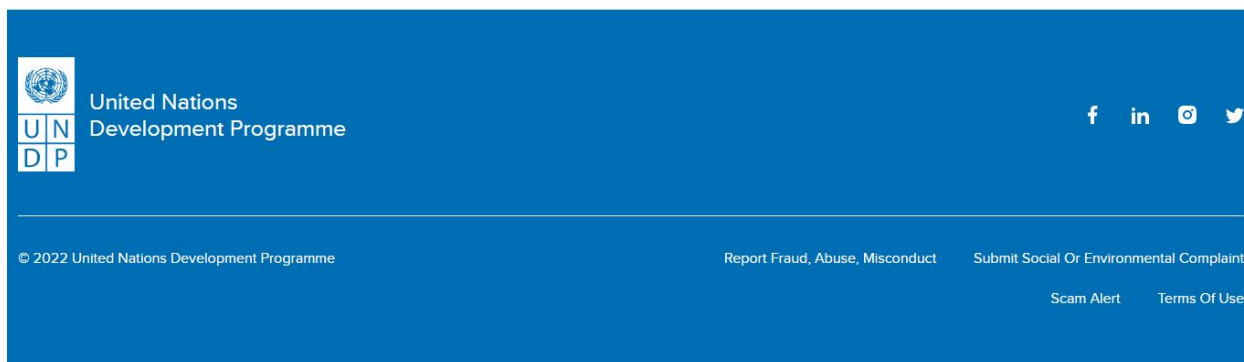

Guidelines have been provided to help users to navigate through the Encyclopaedia portal and a feedback mechanism tool integrated to help in improvement of users' experiences by flagging inconsistencies in data and suggesting additional data and information to include.

Navigation – Login, dashboard

To access the administration portal

- To access the back-end of the portal, you need to login. The login details are as follows:

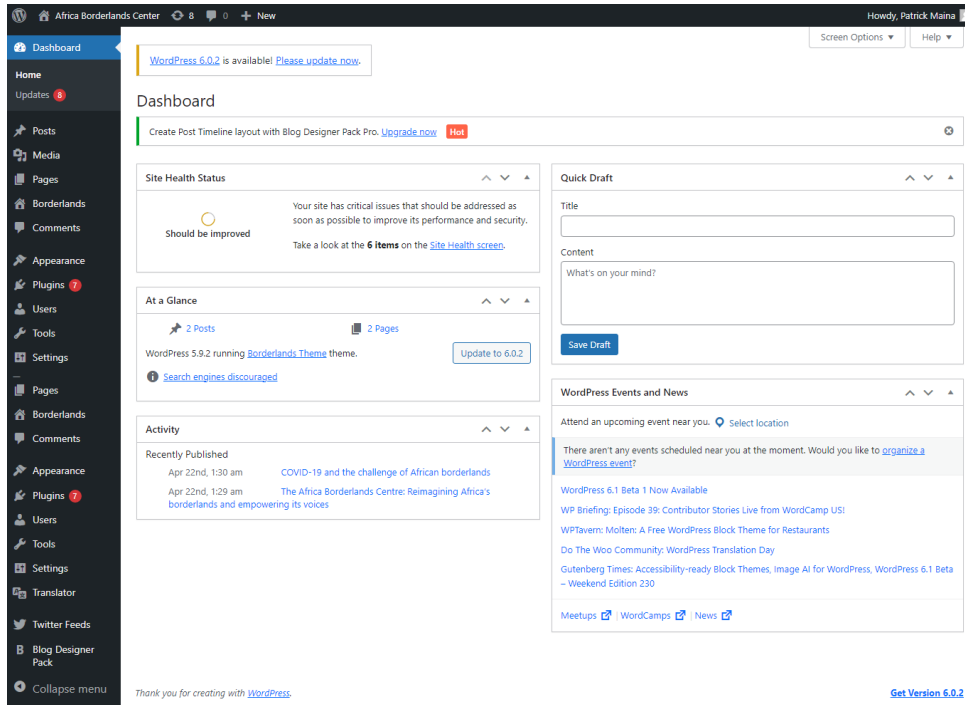

Use this url: <https://borderlandsdata.africa.undp.org/cms/wp-admin/>

Username: *As provided by the Administrator*

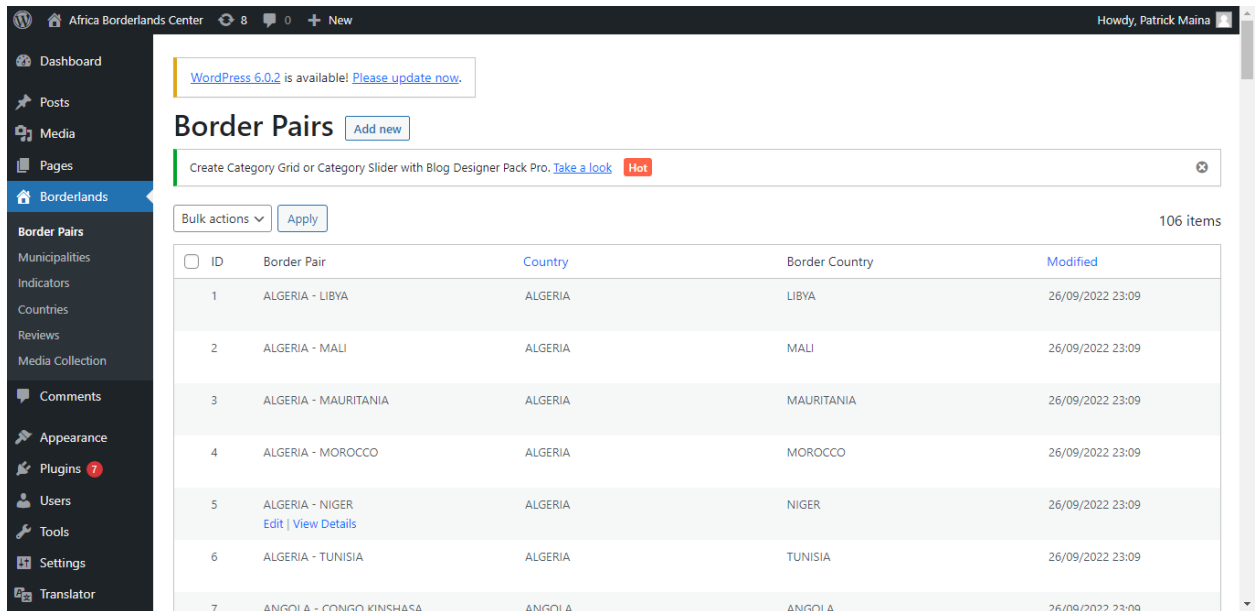

Password: *As provided by the Administrator*

- Once you enter the username and password, it will take you to the dashboard, as shown below:
 - From the dashboard you can access the pages which form the menu items, the blog articles which fall under the posts among other components used to develop the portal.

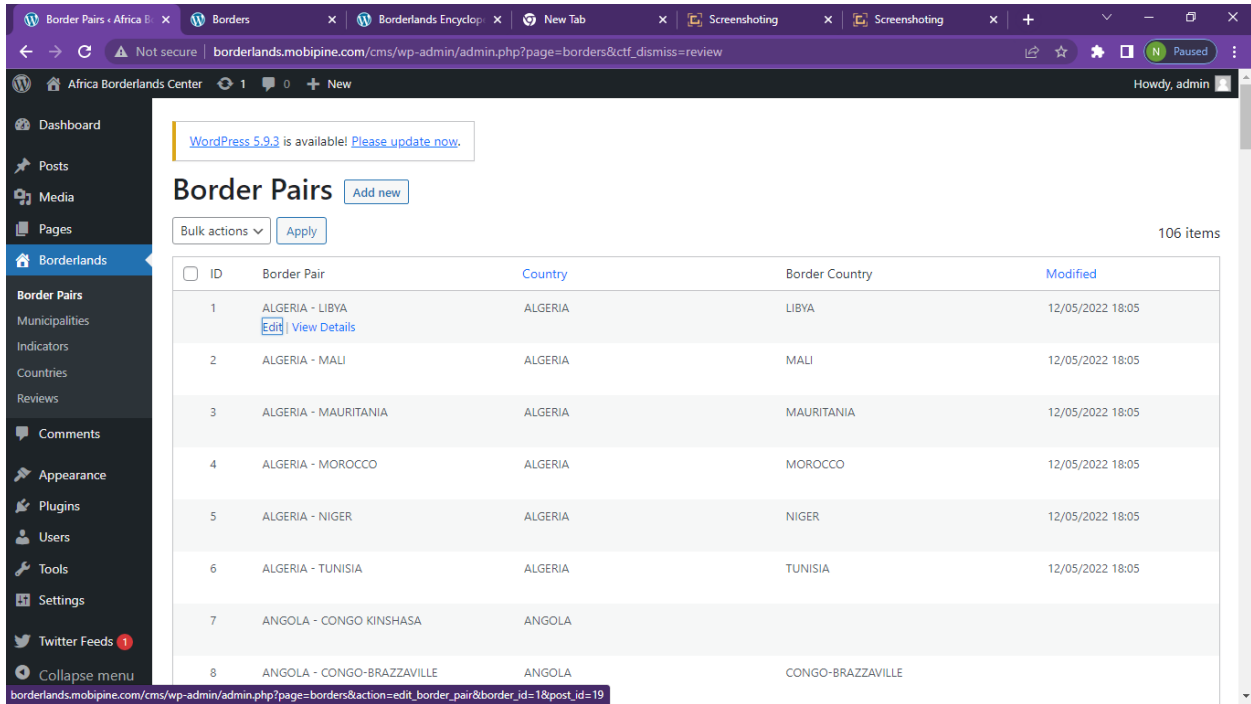

Border Pair (Power BI URL Addition) – Create new, edit, publish, delete

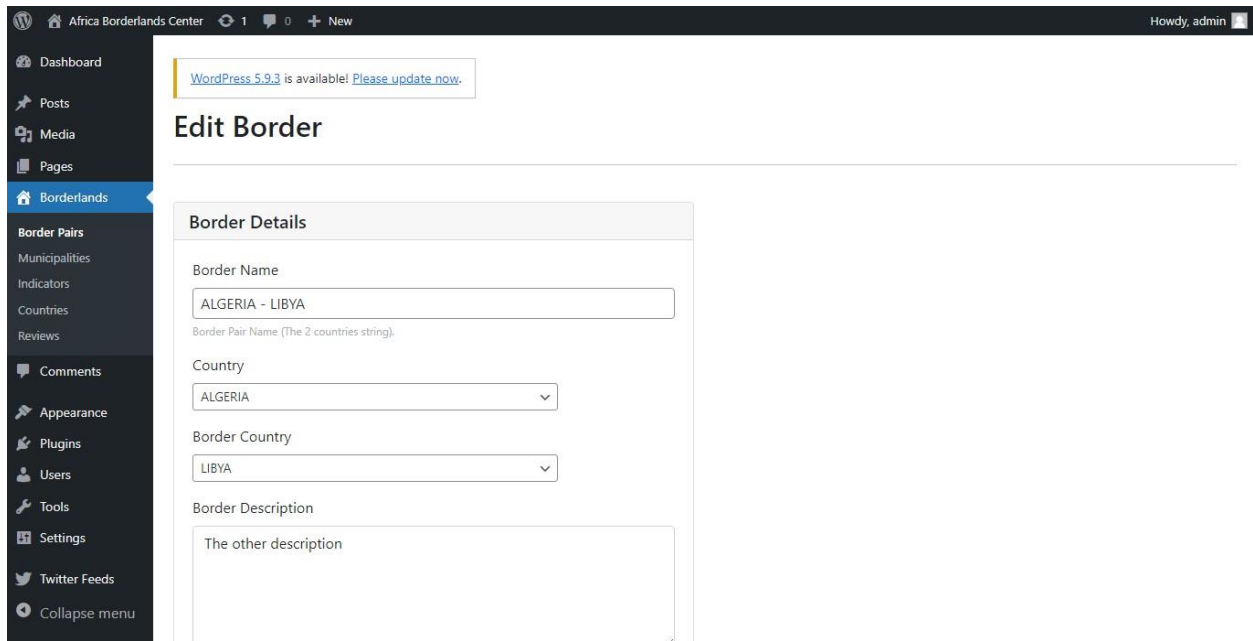

- To Add a new Border pair, follow these steps:
 - i. Login to the website using the details provided above, once in the dashboard look for the navigation link on the left panel of the portal named **Borderlands** as shown below:

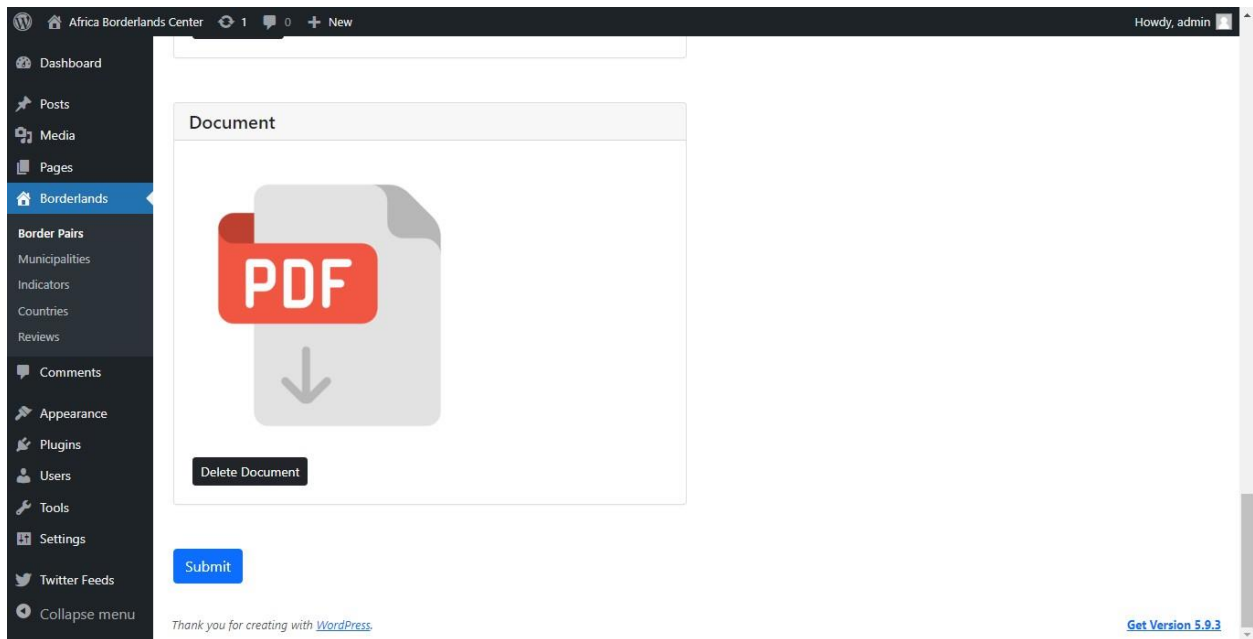

ii. To edit a Border pair, Hover on the Border pair and you will Click on Edit as shown below

iii. Once you click on Edit the interface below will open on the Edit page you will be able to make relevant changes on the **Border Name, Country, Choose Border Country, Border Description, Power BI URL, Power BI Population Chart, Sources, Border Length, Border Established Year, Border Age, Map Image, Screenshot Summary & Documents.**

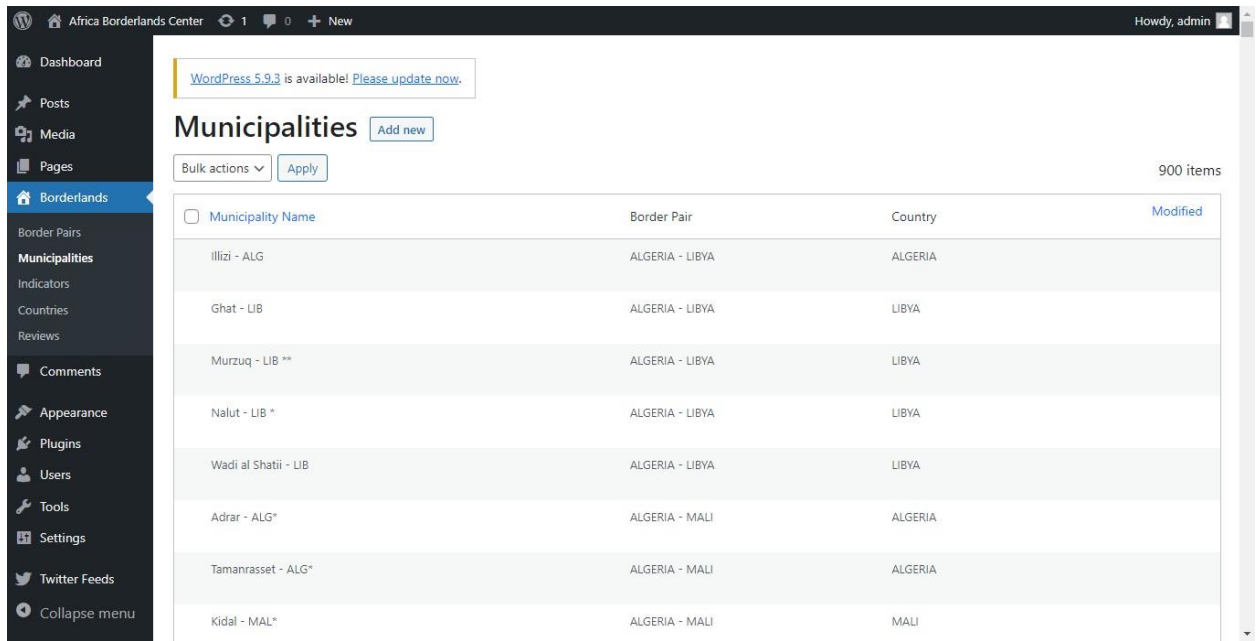

After making your changes/edits click at the bottom the **SUBMIT** button

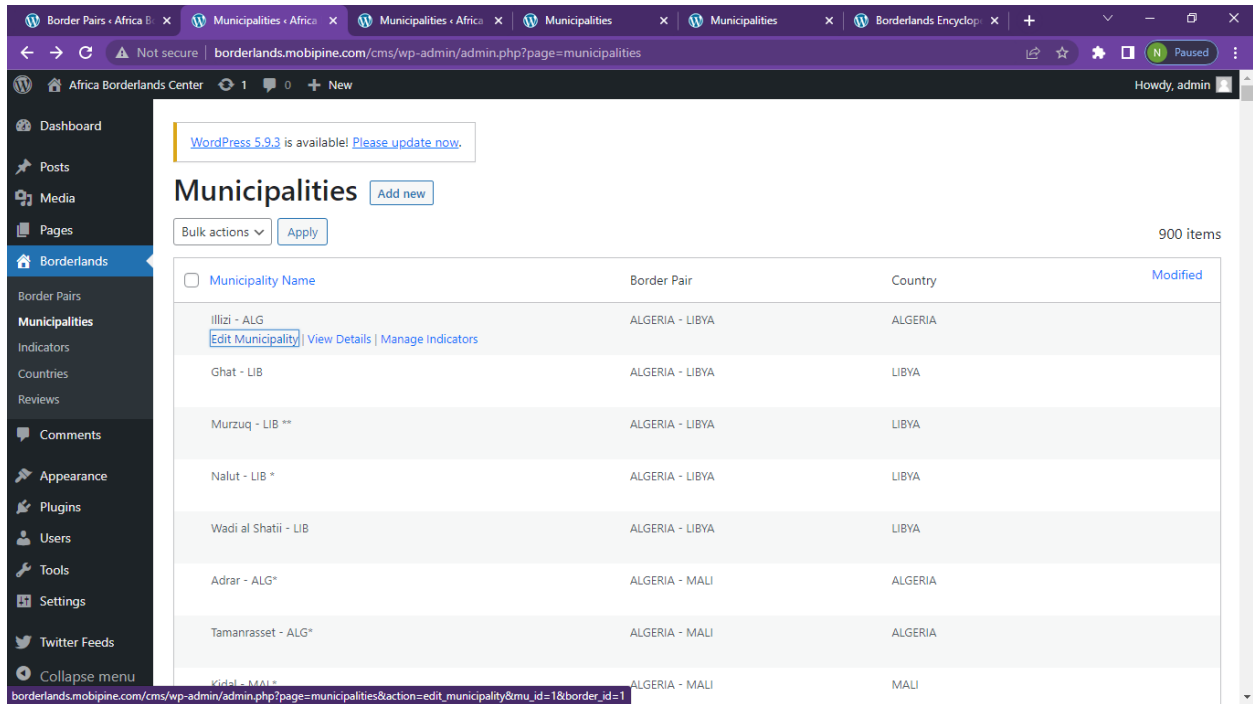

Municipalities – Create new, edit, publish, delete

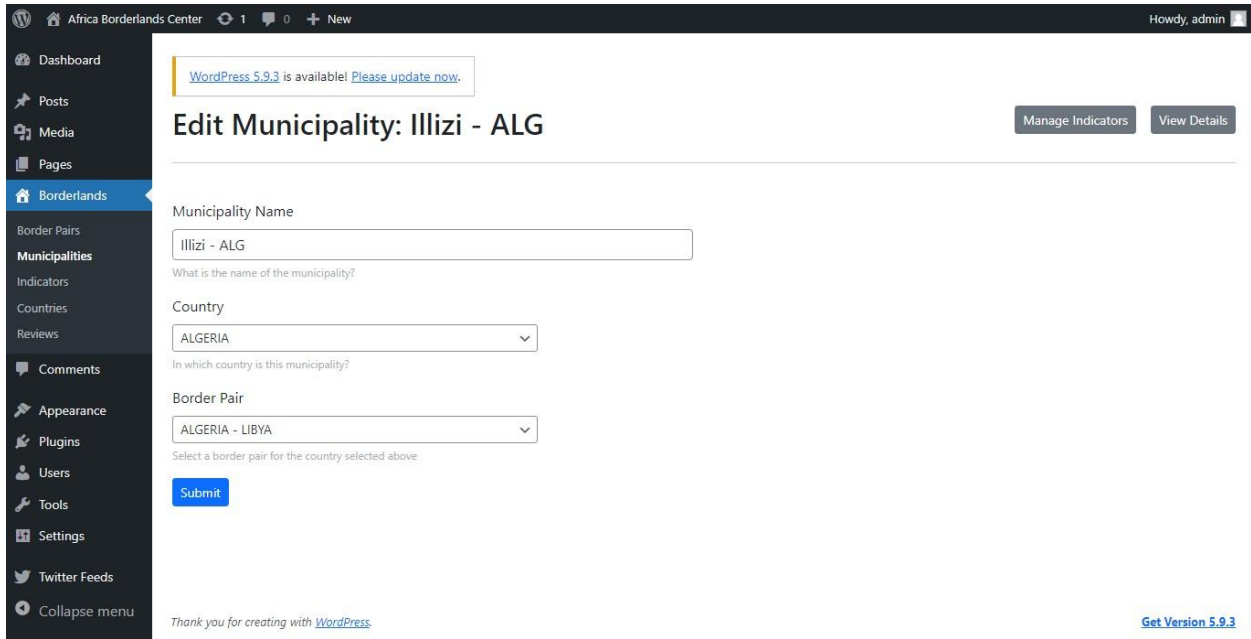

- To Add a new Border pair, follow these steps:
 - ii. Login to the website using the details provided above, once in the dashboard look for the navigation item written, **Municipalities** on the left panel as shown below:

To edit a Municipalities, Hover on the Municipalities and you will Click on Edit as shown below

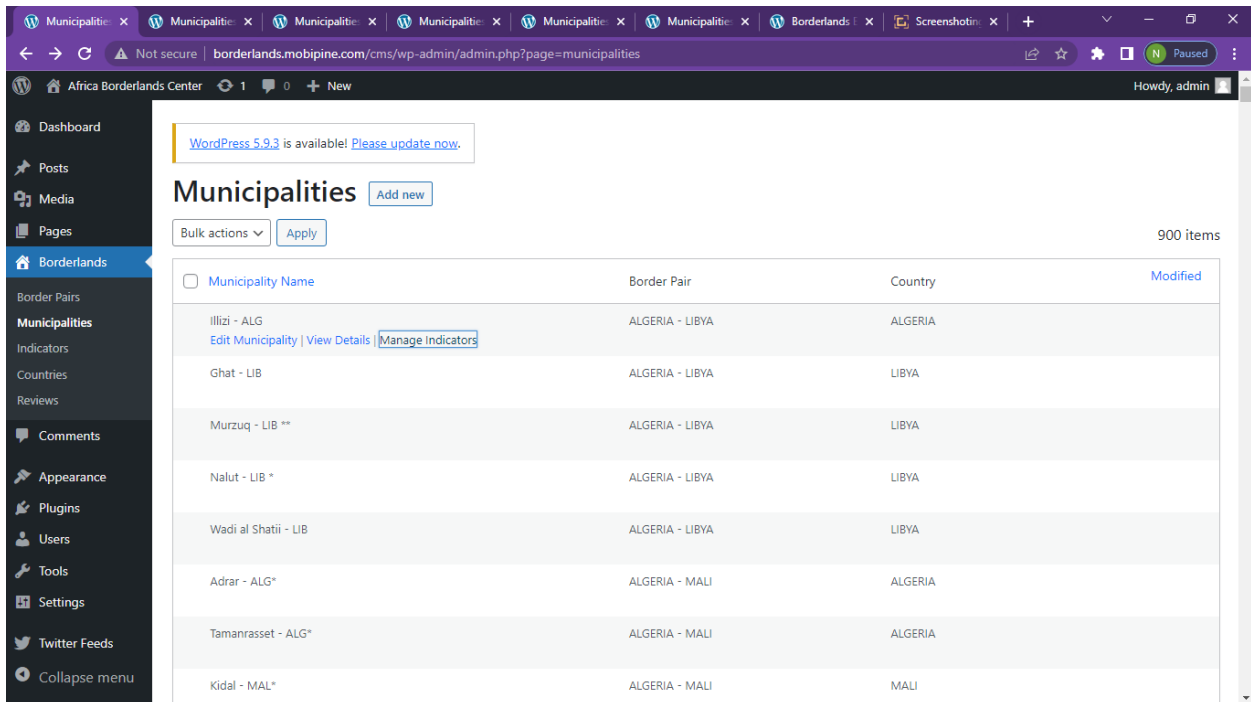

Once you click on Edit the interface below will open on the Edit page you will be able changes on the

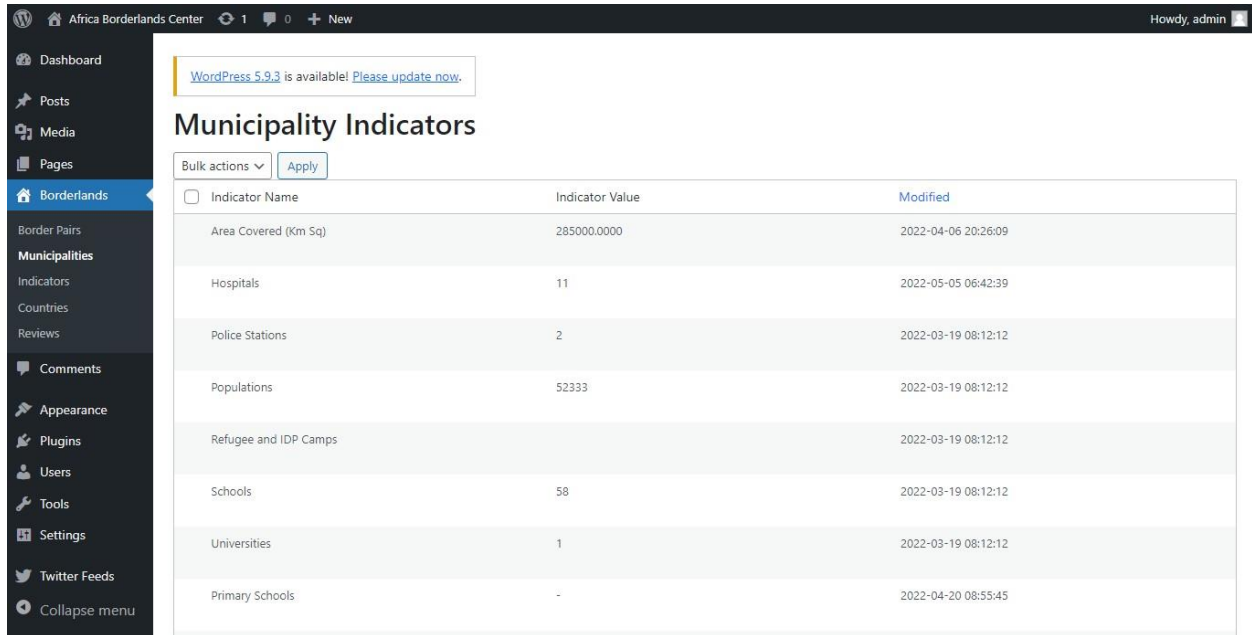

Then After clicking on the Submit Button to finish and save the edits.

Under the Municipalities, you get to edit the specific indicators. Hover on the specifics Municipalities and click on the **Manage Indicators**

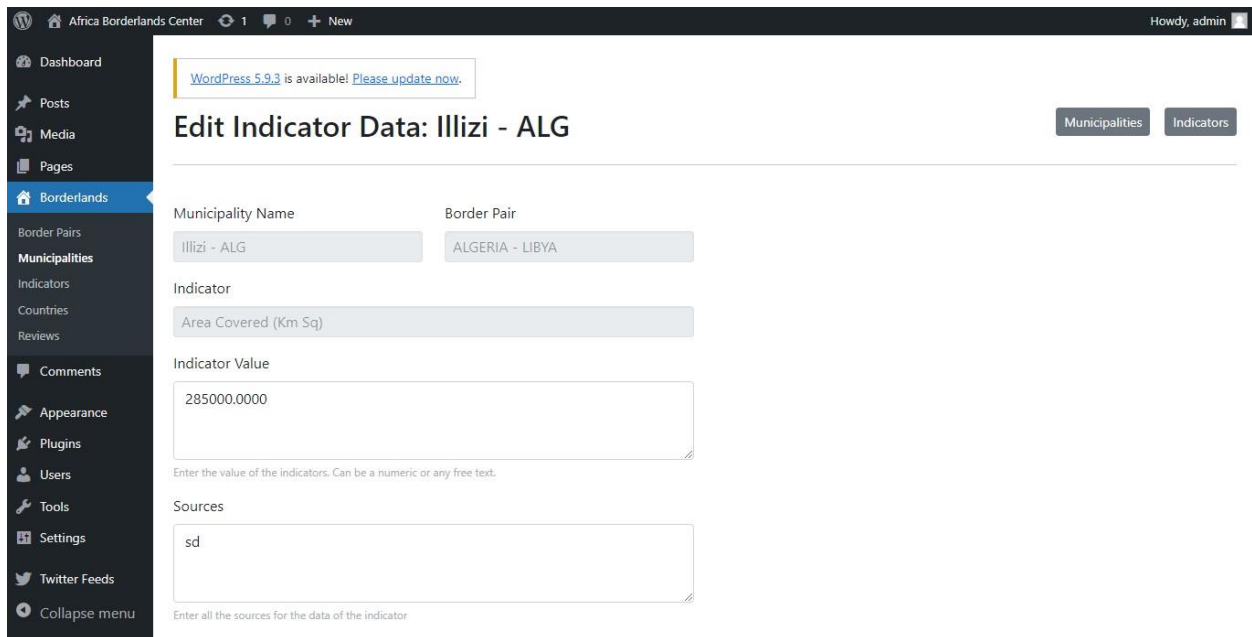

Once you click on Edit the interface below will open on the Edit page you will be able to make changes on the municipality indicators as shown below;

The screenshot shows the WordPress dashboard for 'Africa Borderlands Center'. The left sidebar is expanded to 'Borderlands', with 'Municipalities' selected. The main content area displays a table titled 'Municipality Indicators'. At the top of the table, there is a 'Bulk actions' dropdown and an 'Apply' button. The table has three columns: 'Indicator Name', 'Indicator Value', and 'Modified'. The data rows are as follows:

Indicator Name	Indicator Value	Modified
Area Covered (Km Sq)	285000.0000	2022-04-06 20:26:09
Hospitals	11	2022-05-05 06:42:39
Police Stations	2	2022-03-19 08:12:12
Populations	52333	2022-03-19 08:12:12
Refugee and IDP Camps		2022-03-19 08:12:12
Schools	58	2022-03-19 08:12:12
Universities	1	2022-03-19 08:12:12
Primary Schools	-	2022-04-20 08:55:45

Here you will be able to edit your desired Indicator. Example

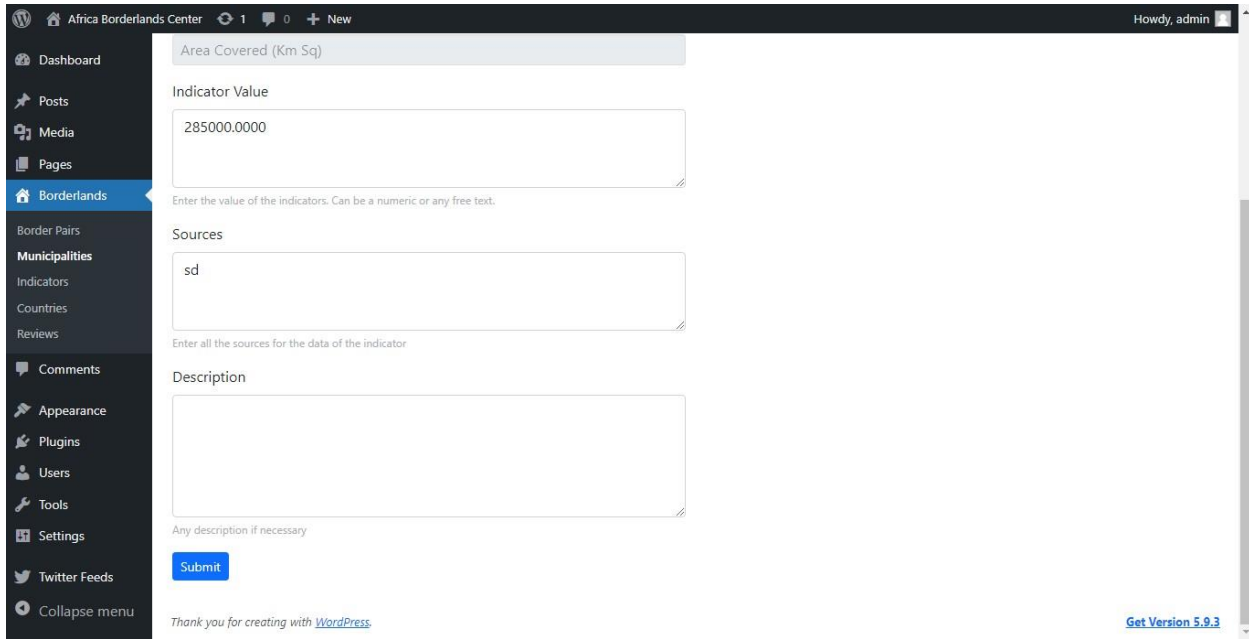

The screenshot shows the 'Edit Indicator Data' form for 'Illizi - ALG'. The form is titled 'Edit Indicator Data: Illizi - ALG' and has two tabs: 'Municipalities' and 'Indicators'. The form fields are as follows:

- Municipality Name:** Illizi - ALG
- Border Pair:** ALGERIA - LIBYA
- Indicator:** Area Covered (Km Sq)
- Indicator Value:** 285000.0000
- Sources:** sd

Below the 'Indicator Value' field, there is a note: 'Enter the value of the indicators. Can be a numeric or any free text.' Below the 'Sources' field, there is a note: 'Enter all the sources for the data of the indicator'.

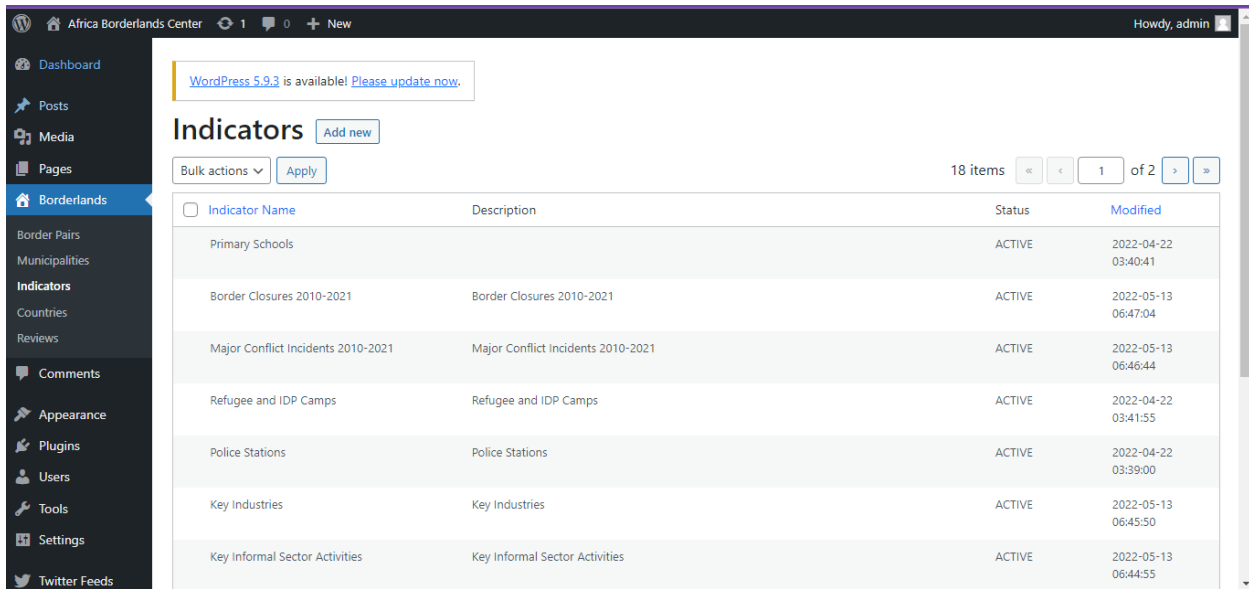

After making your changes you can click SUBMIT

Indicators – Create new, edit, publish, delete

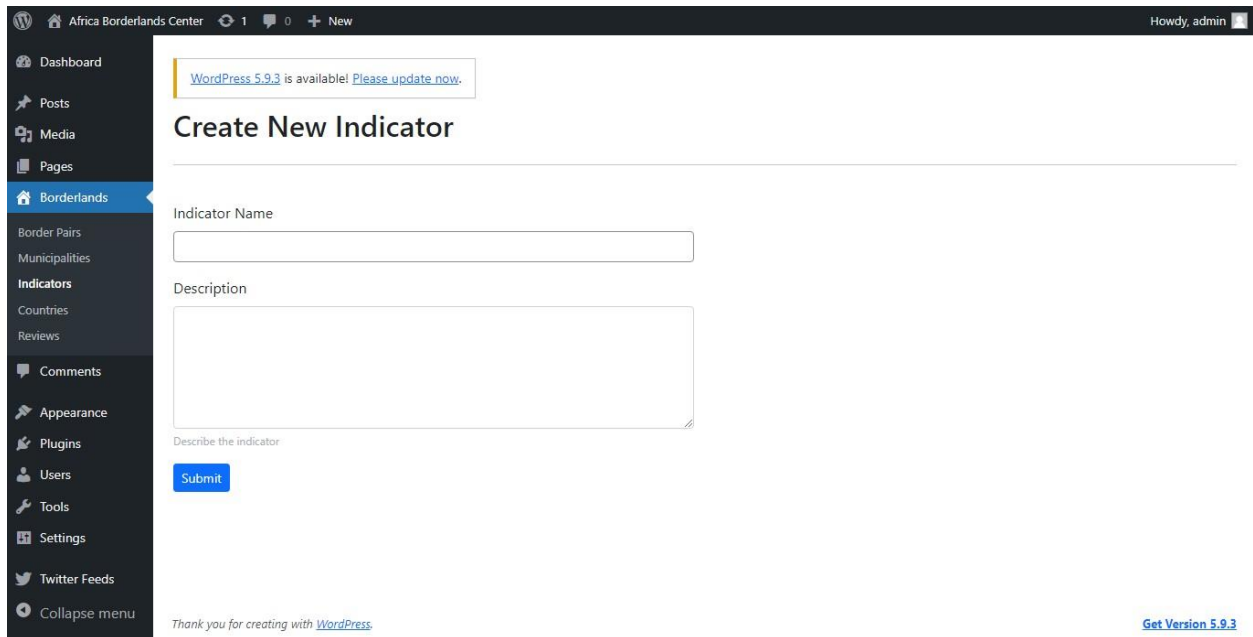

- To add a new indicator, follow these steps:
 - iii. Login to the website using the details provided above, once in the dashboard look for the section written, **Indicators** as shown below:

Adding New Indicators

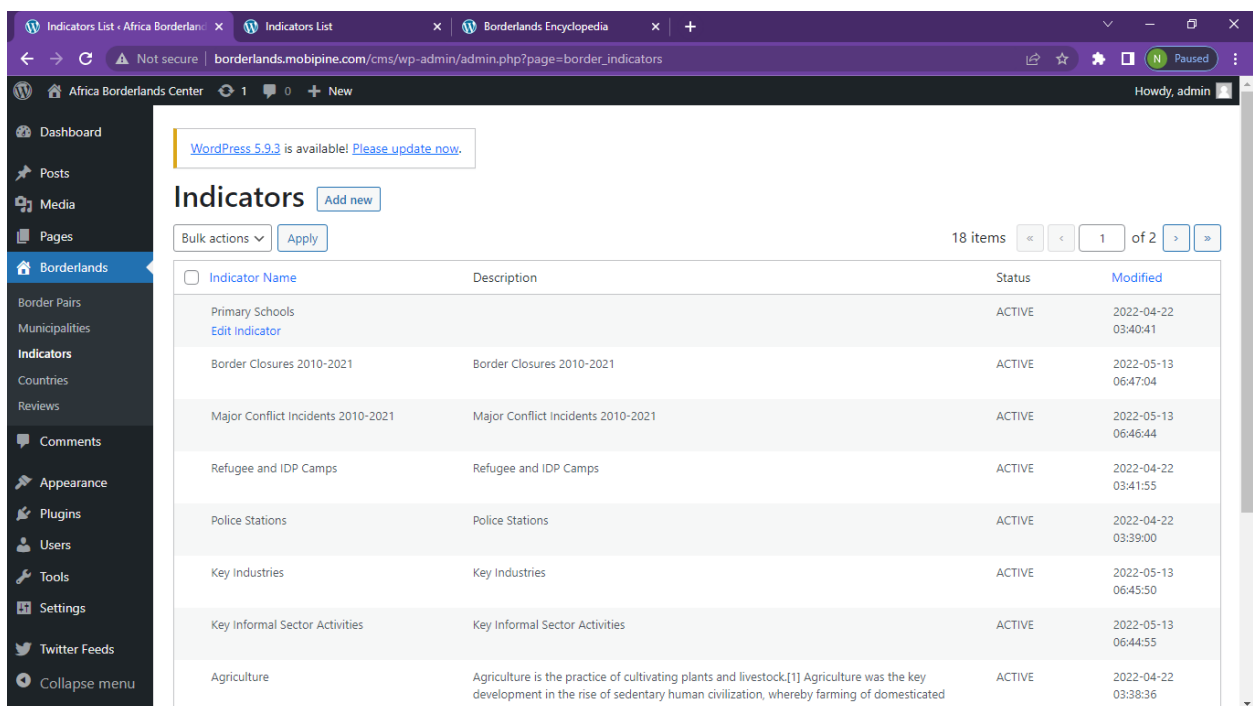

Click on the **ADD NEW** Button as Shown Above

After clicking the button you will be to the below interface.

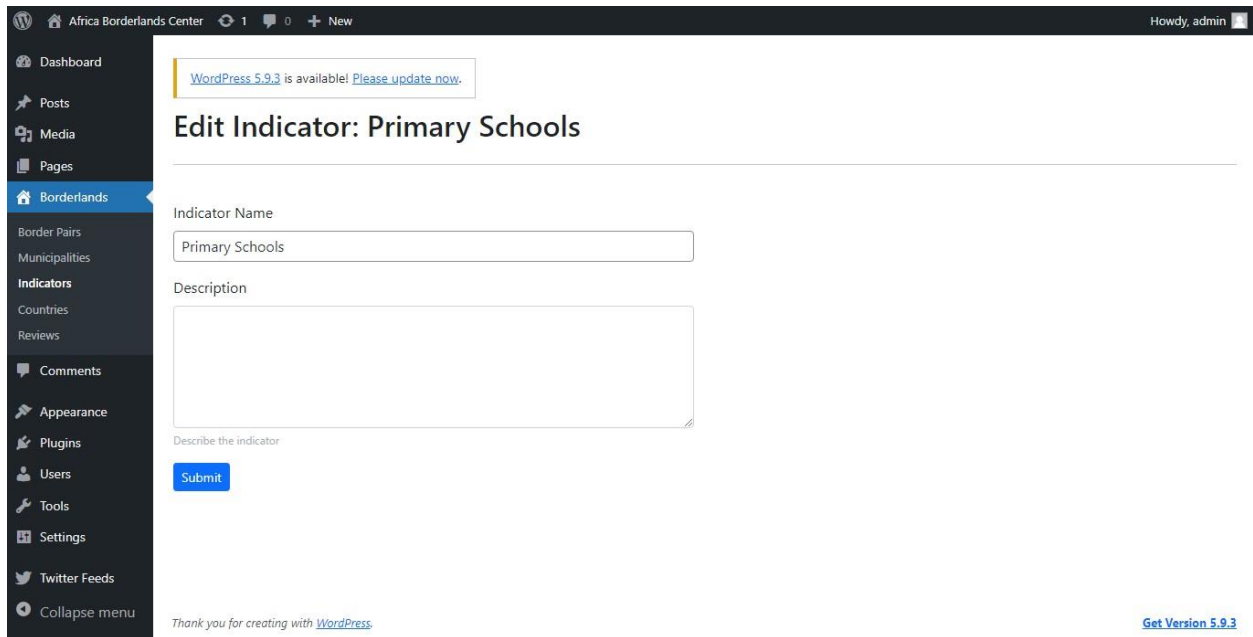

Add your details then click **SUBMIT** Button

- Choose any Indicator that you want to edit, for instance the primary School appearing in the list: **Chillies** when you hover on the name, below it appears options such as edit, quick edit etc. Click on edit, below is an illustration:

- Once you click on edit, the following interface will open:
